

# WW TRAILERS INC.

Introducing to the Northwest...

## Revolution H Hybrid

- Pound for pound, the patent pending Revolution Hybrid is the **LIGHTEST, STRONGEST** combo trailer on the planet

- Weight reduction and improved aerodynamics deliver better **FUEL ECONOMY**
- Find out what **10% BETTER FUEL EFFICIENCY MEANS FOR YOUR BUSINESS**

*Integrated load securement system improves safety and convenience*

## The Fontaine® Revolution™ Advantage

### Revolutionary Weight

- Revolution all-aluminum trailer weighs 8,000 lbs with tandem suspension, 7,800 lbs with super single tire suspension
- Revolution Hybrid combo trailer weighs 9,000 lbs

### Revolutionary Strength

- Revolution all-aluminum trailer has a concentrated load capacity of 60,000 lbs in 4 ft
- Revolution Hybrid combo trailer has a concentrated load capacity of 54,000 lbs in 4 ft

### Revolutionary Side Rail

- Single-piece, routed aluminum extrusion
- No welded pipe spools or rub rails
- Lighter and significantly stronger than steel side rails

### Revolutionary Safety

- Stiffer, friction stir welded, unitized design eliminates "side bow" in spread axle applications
- No side bow virtually eliminates shifting and loosening of secured loads

### Revolutionary Tire Life

- Stiffer design = less tire wear
- Tandem tires lasted well past 200K miles as opposed to typical design tire life of 125K
- Super single tires lasted over 100K miles as opposed to typical design super single tire life of 60K

### Revolutionary Driver Convenience

- Patent pending load securement allows chain tie downs and chocks anywhere on trailer deck
- Patent pending, moveable strap retention/rope hook devices ease strap securement and tarping

### Revolutionary Lighting

- Fontaine's patent pending signature lighting system by Grote has over 60% fewer connections for superior reliability
- Lights protected by recessed design of aluminum tail skirt
- Wiring harness and connections protected by bolt-on covers and placement under center of trailer, away from tire spray
- Comprehensive 10 year warranty on entire lighting system

### Revolutionary Design

- Revolution = 1,500 parts, traditional trailer = 3,700 parts

### Revolutionary Fuel Savings

- Lighter weight
- Decreased wind resistance
- Real world, driver documented fuel savings
